

Star Magnet Clip

Original Design by TK Harrison, Quiltalicious, LLC

Items Needed:

- Clothespin
- THREE (3) 2" squares of fabric
- Magnet (for back)
- Embellishment (for center)
- Hot glue
- Sewing Machine with thread

Instructions:

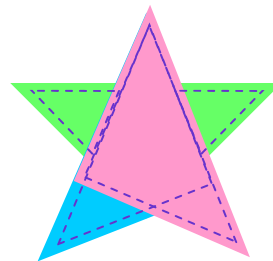

1

Begin by folding each of your 2" squares diagonally, into a triangle. Then, place them so that you create a star pattern and pin together.

2

Now, using your sewing machine, stitch all the way around the triangles, to secure them together and create stabilization for the edges of your star.

3

Finally, hot glue your star to the clothespin, then embellish with something in the center of the star. On the back of the clothespin, glue a magnet strip so you can hang it on your refrigerator or magnetic board!
